RE: File #2003-02824

Dear Mr. Stawasz:

Based on the issuance of amended Wetlands Permit #2003-2824, and subsequent approval of the final catch basin design (in compliance with condition #2 of the permit), DES has determined that the violations noted in Letter of Deficiency # WET 05-001 have been corrected. DES will close its enforcement file regarding the property at this time.

Please be advised that further work in wetlands, waters of the state, the upland tidal buffer zone, the bank, flat, sand dune, or other areas of jurisdiction of the Department requires a posted, approved permit prior to carrying out such work.

Thank you for your assistance in bringing this matter to a resolution. Should you have any questions, please contact the Wetlands Bureau at (603) 271-2147.

Sincerely,

  
Tracey Boisvert  
Compliance Supervisor
